VOTING

Voting in the Democrats Abroad Global Presidential Primary took place February 5-12, 2008, by Internet, fax, mail and in-person at Voting Centers in 33 countries around the world. Secure electronic voting was administered by Everyone Counts, using a voting roll supplied by Democrats Abroad. Votes were cast from 164 countries and territories.

REPORTING

Voting Center managers were responsible for counting and reporting votes cast for each candidate on Official and Provisional Ballots by mail, fax and in-person. These numbers were recorded and certified on Voting Result Forms. Voting Result Forms, Ballot Logs and all Ballots (valid and spoiled) were then sealed and shipped to Democrats Abroad International Chair Christine Schon Marques, 107 chemin de St-Maurice, Collonge-Bellerive, Switzerland. (In Canada and Mexico, some Voting Center packages were centralized locally and forwarded together to the International Chair.)

Internet ballot data and vote counts were uploaded to a secure server by Everyone Counts and downloaded using security certificates and unique passwords by the International Chair and the International Secretary.

TALLYING

The global tally of individual Voting Center and Internet results took place February 17-21, 2008, in Collonge-Bellerive, Switzerland. All campaigns were given formal notice of the time and place of tallying. Taking part on behalf of Democrats Abroad were:

Christine Schon Marques, International Chair
Robert Checkoway, International Secretary
Bill Barnard, Chair, DA UK
Caitlin Kraft-Buchman, Chair, DA Switzerland
Kim Polman, Past Secretary, DA Switzerland

Elle Beard, DA Switzerland
Evan Dec, DA Switzerland
Maggie Tiernan, DA Switzerland
Katie Wade, DA Switzerland
Mary Weed, DA Switzerland

Charles Adams was present on February 17, representing the Obama campaign. No representatives of the other campaigns attended.

METHODOLOGY

Each sealed package was opened in the presence of at least two persons. To begin, two packages were selected at random and fully recounted. These were Strasbourg and Panama City.

The remaining packages were opened and tallied as follows:

1. All mail, fax and provisional ballots were checked against the list of Internet ballots cast to verify that there were no duplicate votes. Each Voting Center was provided in advance with a list of voters in their country who had received credentials to vote by Internet. Anyone appearing on these lists who presented him/herself at a Voting Center was given a Provisional Ballot.
2. All mail, fax and provisional ballots were checked for validity. Ballots were deemed spoiled if they did not include any of the required information (full name, physical address overseas, date of birth, signature) or if the date of birth was after November 4, 1990. Ballots were also deemed spoiled if they indicated a vote for no candidate, multiple candidates, or a candidate not listed on the ballot.
3. A sampling of the remaining ballots for each candidate was then reviewed for validity. If spoiled ballots were found, all ballots from the Voting Center were reviewed.

INTERNET BALLOT SCREENING

Internet voters all provided their birth dates and overseas addresses in advance. The Internet voting roll was closed and finalized on January 31, 2008. Internet voters were pre-screened for birth dates on or after Nov. 4, 1990 before voting credentials were issued. In a number of cases, no overseas address was provided. These voters were subsequently issued voting credentials. If no overseas address was then provided at the time of voting, the ballot was deemed spoiled.

MODIFYING REPORTED COUNTS

Where a ballot was deemed to be spoiled that had previously been counted for a candidate by the Voting Center in accordance with Democrats Abroad Voting Center rules, that candidate's vote count was reduced accordingly. Where an individual was found to have voted by Internet as well as by fax, mail or in person, **both** votes were deemed spoiled. This occurred in 13 cases. (By pre-arrangement, one test-voter was asked to cast ballots by Internet and in person. This was successfully detected. In this specific case, the physical ballot was counted and the Internet ballot deemed spoiled.)

Respectfully submitted,
Robert Checkoway
International Secretary
